Directors Conference

Cyber Threats & Security Overview

Charles, former Special Agent in Charge of Kansas City FBI office, spoke at the annual AWBD summer conference on June 15th in Fort Worth, Texas. His presentation was an overview for individuals and governmental entities on the current cyber threat landscape including recent incidents. Over 1,500 people representing hundreds of Perdue Brandon's MUD clients were in attendance.

Synopsis

Charles' seminar discussed available resources, reporting mechanisms, and planning tools to mitigate cybersecurity risks. In addition, his seminar presentation touched on the federal government's general role in cybersecurity, and the expectations they have for their response to a cyber incident.
